OBJECTIVE

User Experience Architect and front-end web developer with 18 years professional experience, seeking a position with a focused, technology-oriented company committed to maintaining a modern, accessible, and performant web property.

PROFESSIONAL EXPERIENCE

Roundtable Learning - Engineering - Chagrin Falls, OH

User Experience Architect

May 2018 — Present

Creation and maintenance of product design systems by implementing user testing, iterative design methodologies, and strong customer feedback loops. Identify and implement tooling or methods to increase operational efficiency of the development team.

Relevant Skills: JavaScript, TypeScript, Node.js, webpack, Docker, Babel, AWS ECS, Accessibility

Dealer Tire - Product Management - Cleveland, OH

Product Designer

Nov 2017 — May 2018

Guide the design and development teams in unifying the user experience across entire product suite (six independent web platforms). Evaluation of new and emerging technologies and business opportunities. Rapid prototyping of UI concepts for experiment-driven user testing.

Relevant Skills: JavaScript, TypeScript, webpack, Sketch, Usability Testing, Accessibility, Node.js, Google Tag Manager

Dealer Tire - Enterprise Architecture - Cleveland, OH

Technology Architect – User Experience

Feb 2012 — Aug 2017

Design and manage all customer-facing user interfaces. Design reports for enterprise business analysis. Develop prototypes for cross-platform mobile applications. Evaluation and procurement of new and emerging technologies (hardware and software). IT liaison to marketing department.

Relevant Skills: JavaScript, Node.js, Photoshop, Illustrator, OBIEE

Dealer Tire - Information Systems - Cleveland, OH

Web Designer, R&D Developer, Technology Evaluator

Nov 2007 — Feb 2012

Explore, design, and develop prototypes for identifying opportunities to improve dealership operational effectiveness. Assist in construction of new iteration of the core business-to-business web platform.

Relevant Skills: Photoshop, Illustrator, JavaScript, ColdFusion
